About This Game

Olson's Boxing Challenge is a top down game that features 7 different modes and local multiplayer features. Have fun on the couch with your friends and kick back and have some fun with some good old boxing competition. If no friends are available, have fun in the single player or our endless challenge mode! There is much to enjoy for everyone in the boxing ring. Full controller and keyboard support are present and both allow for easy control of your fighter.

Impartial Studios is a one man operation ran by a second year college student named Jake Olson. Hence the name, "Olson's Boxing Challenge". The game has a lot of value for the one dollar that it costs and I promise you'll get a lot of bang for your buck! Continued support is planned to come to Olson's boxing challenge in the form of new game modes in the future! I'm always looking for positive and negative feedback in order to make the product better. Don't hesitate to shoot me an email on the Impartial Studios website.

What Gamemodes can I play?

Barebones: A classic punch out mode that tests player's abilities to punch fast and block blows at the right moments.

Arcade: Power ups litter the ring and change up the game play. Stamina boosts, bear traps, health boosts, and fireballs are available for the players to find in the ring.

Ice Skates: Player speed has increased and deceleration has been set to zero! Slip n' slide around the ring in the fast paced mode.

Flame Thrower: Your fists now can throw fireballs! Don't get burnt in this hot game mode.

Aldo K.O.: A knockout game mode that will test the player's ability to gauge distance and understand timing in the ring. One solid punch will knockout your opponent!

Chaos: The game mode that combines all modes into one. The players who have mastered each rule set will be successful!

What features are there?

- Easy to understand fighting mechanics
- Intuitive orientation of characters
- Singleplayer
- Same Screen Local Multiplayer
- 7 different game modes
- 1 Challenge Mode
- Full Keyboard Support
- Full Controller Support

b4d347fde0

English

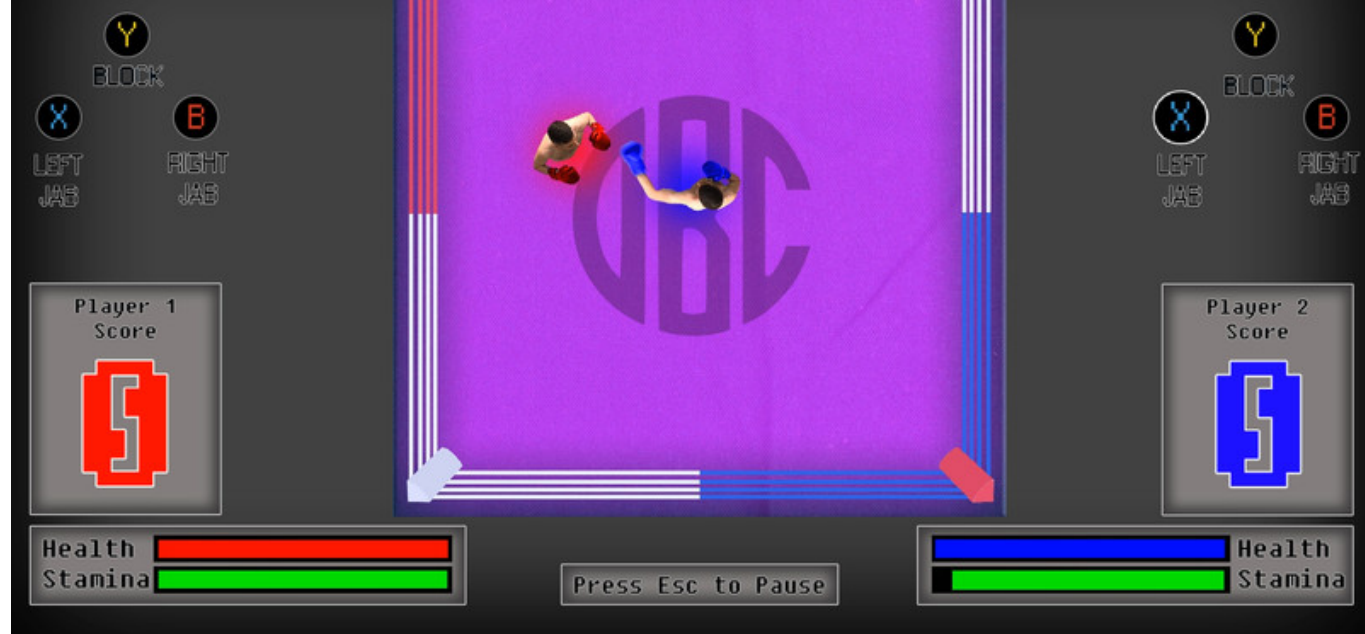

Barebones

Ice Skates

Aldo K.O.

olson's boxing challenge

Not bad. Really fun to play while high on something. Idk if that means anything but worth it to me.. I could see this being good content for streamers. Don't like Q and E for punching. Other than that the game is fun. \$1 just grab it. Controller is probably best to use (at the moment)
